

King's X "The Train"

Visit "[The Train](#)" on MotoLyrics.com

Step up and step aboard, your seat is to the left
Leave all your bags and tightened up your metal belt

Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that goes around the world
Around the world

You leave us all behind, you start to feel the pain
(Last time aboard the train)
Don't try to take the ride, sit back and let it rain
(Last time aboard the train)

Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that goes around

Flying
(Flying)
Around the world
Flying
(Flying)
Flying
(Flying)
Around the world
Flying
(Flying)

Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that lives inside my world
(Last time aboard the train)
Last time aboard the train I'm going 'round the world
Around the world
