

King's X "What I Know About Love"

Visit "[What I Know About Love](#)" on MotoLyrics.com

From a simple word to a simple phrase
Communication and forgiving all the poet
With a way to see, it was a time to say it all
I would never have known what I know about love
Love, love

If not for this, if not for you
If not for me, if not for truth
But I work so hard, just to keep
This treasure chest of trash

I would never have known
What I know about love?
Love, love
Love, love

I would never have known
What I know about love?
Would I know about love, yea?
Oh I never would have known
