

## Kingdom Come "Darkroom"

Keeping cool inside  
I walk the line  
People crossing my Sine  
I don't mind

Men with a mind  
Got a darkroom inside  
The fool on the hill  
Never wanting to kill

Now I can't go on, gotta change what's wrong, inside  
Gonna blow the hood, making understood, my fight  
Gonna jump the tide, coming back alive, who knows?  
Having peace in mind, it's a long long time, ago

The room within, where I've done all my sins

Can't escape anymore, cannot find the door

How I can't go on, gotta change whats wrong, inside  
Gonna blow the hood, making understood, my fight  
Gonna jump the tide, coming back alive, who knows?  
Having peace in mind, it's a long long time, ago

Gonna jump the tide, oohhh  
Gonna blow the hood, making understood, my fight  
Having peace in mind, it's a long long time, ago
