Little wild thing  
Hard and cold she seems  
To one who does  
Not know her  
But deep down inside  
She's warm and bright  
I know her  
CHORUS 1  
Little wild thing  
You've got that something  
Little sweet thing  
Misunderstood thing  
She's heard it all  
And built a wall  
To save her  
And she does not like  
For someone to control her  
She ain't no fake  
Just give and take  
I love her  
CHORUS 2  
Such a precious mind  
Is hard to find  
I told her  
She did not reply  
Just gave a sign  
To love her  
CHORUS 3  
Little wild thing  
Little sweet thing  
Little wild thing  
You've got that something  
Little sweet thing  
(CHORUS out)
