

Kingdom Come "Mad Queen"

Visit "[Mad Queen](#)" on MotoLyrics.com

You caught me with your eyes
I can feel what's on your mind
Just like a gentle breeze
Touching only when you please

Shut down, she's a mad queen
Watch out, she's a love machine

I fall into a trance
Every time I watch you dance
Let's end what you've begun
Show your love what you have done

Shut down, she's a mad queen
Watch out, she's a love machine

Shut down, she's a mad queen
Watch out, she's a love machine
Shut down, she's a mad queen
Watch out, she's a love machine

Shut down, she's a mad queen
Watch out, she's a love machine
