"The Machine Inside"

Electrical rhythm
The beat without life
Cheating the heartfelt
Resisting I tried

The machine inside
So loud and wild
Changing it's heartbeat
Don't even try

Starting the program
Pressing the keys
Adding the six string
Making it scream

The machine inside
So loud and wild
Changing it's heartbeat
Don't even try

The machine inside
So loud and wild
Controlling my senses
I feel so alive
