### "When I Was"

When I was with her, didn't see her, didn't feel her  
touch

When I was with her, never held her, didn't need her  
much

When I was with her, didn't know her, didn't think I  
should

When I was with her, never showed her, never thought I  
could

Now I'm without her, It's getting colder, it's the same  
old thing

Now I have found her, I can see her, I can feel her sting

Held a diamond, right in my palm  
Raising hell, couldn't stay calm  
What has happened, don't understand  
Jakyll and Hide, the evil in men

The same routine, the same mistakes  
I never learned, what it takes  
Loud 'n proud, my head up high  
Falling down, my only prize

Caught in a tin can, with her cold hand, holding down  
the lid  
The darkness inside now, cannot climb out, cannot find  
a grip  
The devil is waiting, masturbating, watching me break  
apart  
The sinner is paying, I am praying, trying to safe my  
heart
