

Kingdom Of Sorrow "Begging For The Truth"

I died that day when you told me that you never knew
me

I died inside when I saw myself above your grave

Can you hear these words?

Begging, screaming

I can hear you now, pleading for your mercy

When more words won't speak to you

The truth will

When the truth won't speak to you

My fist will

Can you hear these words?

Begging, screaming

I can hear you now, pleading for your mercy

When more words won't speak to you

The truth will

When the truth won't speak to you

My fist will

I'm begging you to hear the truth!

Can you hear these words?

Begging, screaming

I can hear you now, pleading for your mercy

I'm begging you to hear the truth
