Nothin's for sure
Or accident proof
You never get hurt
Till it happens to you
Happens so fast
Just thrown at your feet
A kink in your plans
To walk in your sleep
Makes no sense at all
How do I see?
Makes no sense at all
Lying in bed
The midnight shift
Just back from the dead
What more could I wish
Where does it stop
The words grow faint
The body runs hot
The mind goes blank
Makes no sense at all
How do I see?
Makes no sense at all

Tomorrow's light
Just trickling in
I look at my life
And how simple it's been
Till somebody comes
Not a second too late
To shatter your love
With a burst of hate
Makes no sense at all
How do I see?
Makes no sense at all
