Don't you feel like you're running away?  
Life's got you down  
Feels like there's no other way  
It feels like I'm out of control  
Sometimes I just want to let you know

We're all in search of our souls  
Trying to get through another day

Sometimes I just don't understand  
Why it's so hard just to let this go

Don't you feel like you're running away?  
Life's got you down  
Feels like there's no other way  
It feels like I'm out of control  
Sometimes I just want to let you know

We're all in search of our souls  
Trying to get through another day

Sometimes I just don't understand  
Why it's so hard just to let this go
