Man you need a ride?

Uhh, naw I'm good

[Haystak]

Stepped out the club with triple vision  
Couldn't fit my keys in the ignition  
Swerving all over the road  
Ah whatever her name is giving me throat  
A head-on collision waiting to happen  
Rapper dies in traffic accident

Yea right, I get like this every night  
Most knights I'm so fucked up  
I don't even remember leavin the club  
Where my keys are  
Where my drawers are  
How'd I get home  
Who these whores are  
What happened  
I must have been in the zone  
Room start spinning  
And then it was on  
Popped a few oxycontins  
Told my old lady don't ask why bitch

[Hook]

Fucked up tryin to escape the drama  
Don't want to think about my pill or my baby's momma  
I'm fucked up, ahhh, takin a breather  
Don't want to think about my job, or no Monday either  
I'm fucked up, seeing planets and stars  
Weed, X pills and Xanax bars  
I'm fucked up, uppers downers what ever you like  
Everybody get high tonight

[Haystak]

Purple swollen can't quit lickin my lips  
Heart pounding, feels like it's gonna come through my  
ribs  
Tracers of bitches as they pass by [hi, hi]

Get away bitch nothings up with us  
Stop takin your fuckin up my buzz  
Cant you see I'm my private place  
Sweating like a motherfucker give me some space  
[Stack are you okay?]  
[I think he's dead, help]  
Why don't you shut the fuck up  
I was rollin like Michelins  
Heard ya talkin I just wasn't listenin  
Floatin in the ocean with a couple of fisherman  
Fish for bitches bate hooks with Benjamin's  
Now I'm back out here where it's all real  
You owe me two more pills, so I can feel

[Hook]

[Haystak]  
Deep breaths, nice thoughts  
Three, two, one - lift off  
Ohhh, everything in the room  
Melting, too many shrooms  
Hold my breath, close my eyes  
Then I start feeling all fuzzy inside  
Last time i felt like this  
I was on four or five picas fish?  
[Ahhh, this is bliss]  
Get away bitch, nah give me a kiss  
Eat this [but I'm already on two]  
It's just a little gift from me to you  
She sat down, wouldn't stop blabbing  
Fuckin up my high, god damn it  
Would this bitch please shut her mouth?  
Security put this bitch out

[Hook]
