What happened to the blue sky from yesterday  
It's got a black eye and a swollen face

There's a house on fire - there's a house on fire  
Carry the water to the house on fire...

There are children there - women and men  
And we will pay for our sins...  
What happened to the blue sky  
What happened to the blue sky  
There's a house on fire - there's a house on fire

Will you carry the water to the house on fire  
Will you carry the water to the house on fire...?
