Tell the jury - tell the rain - we're going backwards  
1933 has gone- well, you got the facts wrong  
You got the facts wrong...

I'm looking for a train to take me home  
Cause it's getting late and the great depression's  
getting old...

Much too old - much too old and we are so young now  
They got nazi's - let us pray - cause, we got the drive in  
Hope kids don't go sinnin'...

I'm looking for a way to get back home...

Cause we will never change - I saw your picture on a  
phone...

(Solo)

I'm looking for a train to take me home  
Cause it's getting late and the great depression's  
getting old...

Come out - come out - there's something to sing about  
Come out - come out - the loch ness monster - the next  
election  
Come out - come out - there's something to sing about  
Come out - come out - Willie Nelson - the resurrection...
