

Kingsley "Imagination"

Visit "[Imagination](#)" on MotoLyrics.com

but it was just imagination
that you have this fascination
and that you're thinking bout the notion
about the motion in my ocean
and it was just imagination
and that you have this fascination
and that you think you're gonna be with me
but that was just impossibility

you want to hold me in your arms
you want to take me home tonight
you want to hold me in your arms
oh

but it was just imagination

but in your head a celebration
and you think because you hang around
that you're never gonna lose a frown
but it was just imagination
but in your head a celebration
so come back to reality
that you're never gonna be with me

you want to hold me in your arms
you want to play with me tonight
you want to hold me in your arms
oh

well it was just imagination
well it was just imagination
