

Kingston Wall "Alt - Land - Is"

Visit "[Alt - Land - Is](#)" on [MotoLyrics.com](#)

Long time ago, before the iceage, people lived in perfect harmony with the nature in a system that didn't give possibility for overpopulation

As the aksel of the planet (plan-et) was in its right position, straight, all the planet was under stable tropical elimat. So was also Odenmaa at the northpole There lived the Asers who held the highest knowledge on earth with the ROT (root) -language. Outside Odenmaa lived the vaers in their ringlands.

Everybody paid respect to Per who due to the breeding-system was the allfather of all mankind (everyone is a PER-SON)

Over 50 milj. 10000 years ago the aksel of the planet shifted and caused the iceage when the ringlands outside were covered by ice, a perioid called ALT-LAND-IS

ALL LAND'S ICE

As the Gulfstream came to heat south-Finland, Odenmaa remained clear of ice and the Asers learned a new way of life

Agriculture and new animal species were created for staying alive for 50 milj. years surrounded by huge

icebergs

As the ice startd to mel and drown Odenmaa the very few of them left took pairs of the animals with them and sailed through a passage way melted by the stream to Bockland an island outside of Sweden, later named Goatland (Gotland).

After staying there for a thousand years the Asers headed back to Odenmaa except SVEN and DAN who went to

Sweden and Denmark to rehabite the ringlands.

During ALTLANDIS the Vaners develloped into ten different races, mythologies and languages outside the icebergs

The asers lived in Odenmaa again till the year 1050 when the crusader army sent by the Pope destructed Odenmaa and created a new information system based on the written word not spoken as it used to be.

This is a tine part of a story that takes 20 years to tell

two hours a day brought to us as familytradition by
the last Aser since 1984, according to the saga
10 000 years after the end of the iceage.
