As the round comes to an end we go around it
again till we've got no need to pretend
you'll find an endless space in there and it's in
every word you say
still the main things to be aware of
STULDT HJT
If seriousness comes along
there is always for you this song
to take you back as you're going wrong
If we cannot move I'm sure
it's because it's all so new
still the oldest just new for you
It's because it's all so new

and still the oldest just new for you
"The finnish mythology includes a masterkey to the
understanding of the uni-verse and all myths:
The ALPHABET:
A system of 29 sounds with own meanings based on
the ROT (root)-language, the first language
in his story of mankind.
But as it's completely rational, don't forget
STULDT HJT"
