It seems like all the world is fighting, they're even  
talking of a war  
Let all the Russians and the Chinese and the Spanish  
do their fighting  
The sun is shining we're going drivin', drivin'

Drop all your work, leave it behind  
Forget all your problems and get in my car  
And take a drive with me

The sandwiches are packed the tea is in the flask  
We've plenty of beer and gooseberry tarts  
So take a drive with me

We'll take your mother if you want to, we'll have a  
picnic on the grass  
Forget your nephews and your cousins  
And your brothers and your sisters they'll never miss  
us  
'Cos we'll be drivin', drivin', drivin', drivin'

Thousands of trees, hundreds of fields  
Millions of birds so why don't you come  
And take a drive with me

We'll talk to the cows and laugh at the sheep  
We'll lie in a field and we'll have a sleep  
So take a drive with me

And all the troubled world around us  
Seems an eternity away and all the debt collectors  
Rent collectors all will be behind us  
But they'll never find us 'cos we'll be drivin', drivin',  
drivin', drivin'

Passed Barnet Church  
Up to Potters Bar we won't be home late  
It's not very far so take a drive with me, take a drive  
with me  
Drivin', drivin', drivin', drivin'
