"I'll Remember"

I'll remember everythin' you said to me
I'll remember everythin' we did

I'll remember best of all
The love we shared, the tears that fell now
I'll remember everythin' you said to me

I'll remember every word you said to me
I'll remember every laugh you made

I'll remember best of all
The love we shared, the tears that fell now
I'll remember everythin' you said to me

Thinking 'bout it now, just what might have been
Thinking 'bout it now, things will never be the same
But I'll remember everythin' you said to me

I'll remember best of all
The love we shared, the tears that fell now
I'll remember everythin' you said to me
I'll remember everythin' you said to me
