"In a Space"

In a space, allocated to me by the human race
Inhabiting this area until I die
This space is occupied

I'm in a space, leased by confirmation of the human
race
Close up, I am big but far away I'm small and hardly
here at all
'Cause in a space out in space we disappear without a
trace

Now, I'm out in inner space and I'm lookin' at the
people
Standing face to face and filling up the space
Men and women, boys and girls
There are so many people in the world

Thinkin' about the world and all the people in it
And I'm staring at the stars and into the infinite
In a world, within a world, on a planet that's driftin' in a
space

Seconds into minutes and minutes into hours
And hours into days and days into months
And months into years and years into decades
Tens into thousands, thousands into millions
Millions into billions, billions into zillions and forever
and forever

In a space, allocated by the human race
Somewhere in outer space it's far away
And I like it that way

Now, I'm out in inner space and I'm lookin' at the
people
Standing face to face and filling up the space
Men and women, boys and girls
There are so many people in the world

Thinkin' about the world and all the people in it
And I'm staring at the stars and into the infinite
In a world within a world, on a planet that's driftin' in a

space

In a space

In a space

In a space

Now, I'm out in inner space and I'm lookin' at the
people

Standing face to face and filling up the space

On a planet that's driftin' in a space
