Hey, I never met a girl like you before  
Yeah, I never met a girl like you before  
Girls like you are very hard to find

Hey, I never met a girl that I could miss  
Yeah, I never met a girl that I could kiss  
Girls like you are very hard to find

When I kiss you  
I kiss your lovely lips  
When I hold you  
You got one hand I want to hold

Girl, I never met a girl like you before  
Yeah, I never met a girl like you before  
Girls like you are very hard to find

Hey, I never met a girl like you before  
Yeah, I never met a girl like you before  
Girls like you are very hard to find

To find, to find, to find, you're mine
