Just sitting down by the riverside  
Spreading my arms to the open wide  
Now, I am free and the world's at my feet  
I can close my eyes

Oh love, keep me warm, keep me satisfied  
Please keep me calm, keep me pacified  
Now, I'm content and my life is complete  
I can close my eyes

Sitting by the riverside with you, I love sitting down  
By the riverside, watching the water go flowing by  
Oh golly gee, it is heaven to be like a willow tree  
Spend my time, just drinking wine while looking at the  
view
