Everybody got problems  
Buddy, I got mine  
When midnight comes around  
I start to lose my mind

When the sun  
Puts out the light  
I join the creatures  
Of the night, oh yeah

I'm a sleepwalker  
I'm a night stalker  
I'm a street walker  
I'm a night hawker

Everybody got secrets  
That they wanna hide  
When midnight comes along  
I take a look inside

Don't go talking in your sleep  
I might come in  
For a peep, oh, yeah

I'm a sleepwalker  
I'm a night stalker

When everybody's fast asleep  
I start to creep  
Through the shadows of  
The moonlight, I walk my beat  
Better close your window tight  
I might come in for a bite, oh yeah

When night time comes  
I start to creep  
I prowl around when  
You're fast asleep

I walk around  
On my tippy toes  
I get into places

That nobody knows

I'm always around  
If you wanna meet  
You can find me  
On almost every street

You'll always get me  
On the telephone  
I'll even come to your home  
If you're ever alone

I'm a sleepwalker  
I'm a night stalker  
I'm a sleepwalker  
(Sleepwalker)  
I'm a night hawker  
(Night hawker)

I'm a sleepwalker  
(Sleepwalker)  
Night stalker  
(Night stalker)  
Street walker  
(Street walker)  
Night hawker  
(Night hawker)

Oh yeah, oh yeah  
Oh yeah, oh yeah...

I'm a sleepwalker
