From a line at the counter  
boarding pass always with you  
now this is your gate number welcome aboard

fasten seatbelt while seated  
turn off everything with your  
electronic devices welcome aboard

i've got these airport feelings  
all over you i'm ready for landing  
i'm ready to lose

this is your captain speaking  
thirty three thousand feet high  
now your skin is my runway welcome aboard

i've got these airport feelings  
all over you i'm ready for landing  
i'm ready to lose

now your skin is my runway i'm ready to lose.
