Rapidshare
Days wearing uniforms
One by one in a line
If you don't like yourself go fit the bones of someone
else
All clocks hanging on walls
Should be in a count down
Cause I don't care what time is it but how much time
we've got

And Every second i'm just living and living it up
And Every second i'm just living and living it up
I can't believe it how i'm living and living it up
I'm still standing while i'm living and living it up
And again and so
And again and so

I got nothing to loose
I've got nothing yet
The sweetest thing is people trying for a whole new
breath
My heart is coming loud
I can't hear any sounds
A single wail from you will launch me far away from
ground

And Every second i'm just living and living it up
And Every second i'm just living and living it up
I can't believe it how i'm living and living it up
I'm still standing while i'm living and living it up
And again and so
And again and so...
