### "Holding On For Life"

Visit "[Holding On For Life](#)" on MotoLyrics.com

They've been told the odds are stacked up high  
against them  
Statistically they hear they're bound to fail  
But that's a chance they don't mind takin'  
Every day the love they're makin'  
Proves to them there's got to be a way

(Chorus:)

So she  
She just won't let what people think effect her feeling's  
And he  
He just don't understand why the world has stopped  
believin'  
In love  
They finally found what everybody else is needin'  
So with all thier might  
They're holdin' on for life

It's all in how you look at things that matter  
And as for them their heads are in the clouds  
But when they look down they clearly see  
A glass half full and not half empty  
They believe they've got what it takes

(Chorus)

(Bridge:)

Arm in arm (arm in arm)  
Heart to heart  
They live as one (they live as one)  
They believe in love

(Chorus)
