Watch my eyes, now, they're spinning round
I'm gonna cut you to the ground
Like bullets from a machine gun
Watch out, 'cause here I come

I've got petrol on my tongue
Have a pop at every one
Every word from A to Z swivelhead

I've got my seedy videos
Computer games, in stereo
I've got no patience, got no time
I think I lost my mind

To the people in this crowd
Saying nothing, talking loud
Every word from A to Z swivelhead

Watch my eyes, now
I'm on your tracks
You're in my sights
I'm gonna keep you up all night

My motor tongue is turbo run, I'm having so much fun
Shoot my mouth off, like a gun
Have a pop at everyone
Telescopic, infra-red swivelhead
