Out of time
Out of luck
Thought i was just dreamin' then i woke up
You said it was over
The end of the line
I'm tellin' everybody i'm fine
But i'm just

(Chorus:)
Climbin' up mt. everest
I swear it's like
Crawlin' from here to memphis knocked
senseless
Like diggin' a hole in china to find
You don't love me no more

Night after night
I come home
Watchin' on the news who else was overthrown
Two warring nations
We fought the good fight
Always waiting for the other to strike
And it's like

(Chorus)

(Bridge:)
Shine the light
Ring the bell
Guess you don't love me
Well well
I'll go on
I'll survive
I don't know how but i'll try

(Chorus)

You don't love me no more
You don't love me no more
