"All You See"

Visit "[All You See](#)" on MotoLyrics.com

Skating on the ice of yesterday
Can you let it be despite everything?
Persecuting self for no such crime
Ever good for you never known it's true

Time goes by, time goes by
And I will find it when I want to try
Stop the noise in my head, stop the noise...

(Chorus)
All you see and all you feel and all that you give
Is it all wasted? Am I still wasting?
All you see and all you feel and all that you don't say
Can we still feel? Am I still feeling?

Kicking up the dust from time to time
Never saying no and still letting go
Sorrow is a word and not a crime
And a passing phase is a thing to hold

Stop the noise in my head...

(Chorus)

Persecute yourself for no such crime
When it's hard to hide this pain inside
Sorrow is a word and now a crime
And passing phase is a thing to hold
