"Blood Type"

It such a warm place but there on the street
Where our footprints are waited for
Stardusted boots
Sparkle and shine
Here are the shepherd and upholstered chair
Dazzling dreams below the bright sun o
The trigger untouched
When it was the right time

CHORUS:

My blood type mark is on a sleeve
There is my ordinal number mark on a sleeve
Wish me now some luck in the fight
Say now, saying
I won't stay in this field of green
I won't stay in this field of green
Wish me now to be lucky
Say now, saying
Be lucky

I make wealth to pay but I never want
A triumph at any price
I never want someone's chest lying under my foot
I would rather stay here with you
Just to stay here with you
But a star which is high in the skies
Still gives me the route.
