I'm walking along the street
I want nothing
I put on my shades and I see nobody
Hey you, you better keep walking or I'll hit you

I go to concerts for free
In the fall, in the winter I go
In the spring and in the summer
Hey you, you better keep walking or I'll hit you

I come home late at night
Switch on my stereo
And my next door neighbor groans he's having a
nightmare
Hey you, you better keep walking or I'll hit you
