We wanna see further than windows across the street
We wanna live, we wanna have our nine lives
Here we are, we claim our rights, oh yes we do!
Can you hear the rustle of our coats-here we are!

CHORUS

It's our time, our turn!

We were born in crowded apartments in new districts
We lost our virginity fighting for love
The clothes you made for us no longer fit us
We've grown out of them
And here we are to tell you that

CHORUS
