Came in walking from the rain
Oceans parted me again
Flight of fancy from now on
Seperation only born

If the only thing I see
Will replace the child in me
To become so ignorant
Only wishing heaven sent

But it's you that leaves me here in silence and sadness
And it's you that leaves me far away
But it's you tha leaves me here in silence and sadness
But I want to be next to you

Here I am for all to see
Ocean parted beside me
Disparate and overview
Something here in front of you

If the only thing I see
Comes between both you and me
To remain so ignorant
Only wishing heave sent

But it's you that leaves me here in silence and sadness
And it's you that leaves me far away
But it's you tha leaves me here in silence and sadness
But I want to be next to you

Something here beside the rain
Comes to poison what remains
And it all seems so disperate to me
Burn the church beside the Fifth
And the well that gives the wish
Letting go of the obvious
So obvious to me

Know yourself
Just know yourself
Know yourself
Please know yourself

Letting go
Just let it go

Nothing left for us to be
Burn the bark to leave the tree
Now the heart isn't functional
Stop the noise inside my head
Wait for velvet coverage
And it still seems to disperate
So disperate to me

Know yourself
Just know yourself
Know yourself
Please know yourself

Letting go
Just let it go

And I'm going to be next to you
Came in walking from the rain
Oceans parted me again...
