People might pass you by, but they're going to be  
around without you  
If you might find the time then they're going to find a  
way without you  
People might pass you by, people might pass you by

People might pass you by, so you better go and think  
about it  
Yeah, you might give the time, but you better learn to  
live without it  
People might pass you by, people might pass you by

Please stop leaving yourself, can you please stop  
leaving yourself?

Oh just wake up inside, it's a noise that passes, take  
some time  
When you can learn to decide if the people sign to  
change a tide in you

People might pass you by, but there are never many  
ways about it  
So if you're going to live a lie, the you're going to live a  
lie without it  
People might pass you by, are you ever going to live a  
lie without it?  
And if they sive you the time are you ever going to be  
around to doubt it?

Please stop leaving yourself...

Oh just wake up inside, it's a noise that passes, take  
some time  
Oh just wake up inside when the people sing to change  
a tide in you

People might pass you by
