Watch the sun go down, it's just my luck again
I can hear the sound of your voice haunting me again
But just the sound is not enough, I try to wait, but I'm
not that tough
It's hard to do when I need you here, it seems like
forever
Chorus:
Without the night, this would be so much easier
Without the night reminding me of the pain
Without the night, I could keep my heart from believin'
I'd be fine without the night
I remember you used to say, how much you've been
through
And laugh how easy the pain can break your heart in
two
All for love, you've given up, you try to wait, but you're
not that tough
Too many times when you need me near, it seems like
forever
Chorus - without the night
(Solo)
All for love, I've given up, I try to wait, but I'm not that
tough
Too many times when I need you here, it seems like
forever
Chorus repeats 2x...
I'll be fine without the night
