What just happened to us  
I think I fell asleep at the wheel  
We must have crashed up the car real good  
Because I can't feel anything at all  
I'm super sorry but my eyes got really heavy  
The last thing I remember is your smile

Tidal wave, you wash me ashore  
One more time on the beach for me  
Tidal wave, you wash me ashore  
One more time on the beach for me

What just happened to us  
I think I fell asleep at the wheel  
We must have fucked up the car real good  
Because I can't feel anything at all  
I'm super sorry but my eyes got really heavy  
And the last thing I remember is your smile
