I spend time of mine burning photographs  
And now I'm stuck somewhere in the middle  
At least we got a lill piece of me  
And listen to the song that everyone is singing

I spend time trying to  
Kicking all the dirt and running in the circle  
And we lived out lives inside star?  
And we ate our that we shared in the temple  
I spend time of mine burning photographs  
And now I'm stuck somewhere in the middle  
At least we got a lill piece of me  
And listen to the song that everyone is singing  
And no more worthy compliments

More meaningless  
And lisen to the song that everyone is singing
