I was hungry you feed me  
Naked you clothed me  
They will know us by our love

Can't imagine how it felt as layed there  
Through the dark through the heat through the cold  
With your friend by your side held his hand and  
watched him die  
And you cried as you prayed for his soul

I can't imagine how it felt as you stood there  
Through the winds that would just not go away (um  
huh)

Kiss my wife tell my son my work on earth is done  
You're the one that can still hear them say (ooh)

Is there anybody out there listening  
And does anybody know my name  
No my friend we were not there  
But we're here and we care  
And yes we feel your pain (ooh yes)  
And yes we feel your pain

I can't imagine how you felt as you sat there  
Trying to hide the fear upond your face

As the earth begins to cry and you ask the preacher  
why  
Tonight we can hear the children say (hear them say)

Is there anybody out there listening  
And does anybody know my name (anybody)  
No my friend we were not there  
But we're here and we care  
And yes we feel your pain (ooh)

And does anybody out there know me (Do you know  
me)  
Can you stop the clock make this go away(make it do  
away)  
No the cross we can not bare but god can and he cares

And yes he feels your pain (we can feel the pain)  
And yes he feels your pain

And can anybody see because my faith is getting weak  
Don't know how much more I can take  
Hear my heart and please don't delay (lay)

Is there anybody out there listening  
And does anybody my name  
No my friend we were not there  
But we're here and we care(oh oh)  
And yes we feel your pain (YEAH)

Is there anybody out there listening  
(Does anybody know) does anybody my name  
(Does anyone know my name)  
No my friend we were not there  
And I look right hear and I care (we hear and we care)  
And yes (yes)he feels your pain (I feel your pain)  
(yeaaaah)

Does anybody out there know me(know me)  
Please stop the clock and make this go way (you can  
make it go away)

No that cross I can not bare but he can and he cares  
And (yes) feels your pain (oh yes)  
And yes he feels your pain  
And yes he feels your pain(feels your pain)(thank you  
jesus)

The clock is ticking we hear you (oh my oh my) we see  
you  
He's got the whole world in his hands (oh ohh)  
He's got the whole world in his hands (you and me  
sister you and me brother)  
Hands (hands) hands
