Watch me now
Watch me now
Watch me now
Watch me now

If I could I, I'd get away
Far from all this trouble I see everyday
Nobody wants to show their face
This life is like a, like a masquerade

I know You love me, I know You care
But while I'm hurting
I just need to know You're there
Watching over me and I feel You telling me

Count it all joy, always remember
Life will get better, it's gonna get better
No matter the weapon, it will not prosper
Things will get better, it's gonna get better

Persecuted, pushed away
Didn't think I'd live to see another day
Cried some tears and, and couldn't pray
And when I tried at times I couldn't find the words to
say

But now I'm stronger because of You
Without You Jesus, I never could have made it through
Thank You for watching me
Loving me and telling me

Count it all joy, always remember
Life will get better, it's gonna get better
No matter the weapon, it will not prosper
Things will get better, it's gonna get better

Count it all joy, always remember
Life will get better, it's gonna get better
No matter the weapon, it will not prosper
Things will get better, it's gonna get better

Life sometimes may change

And nobody wants to feel pain
But it came to help you grow
That one thing you need to know
God's in love with you
And He'll never let you go

I can't stop now
I said, I can't stop now
I said, I can't stop now
People you gotta remember

Count it all joy, always remember
Life will get better, it's gonna get better
No matter the weapon, it will not prosper
Things will get better, it's gonna get better

Count it all joy, always remember
Life will get better, it's gonna get better
No matter the weapon, it will not prosper
Things will get better, it's gonna get better

So the next time you feel like givin' up remember
It's gonna get better
The next time you feel like walkin' away remember
It's gonna get better

The next time you feel like you look at your bank
account remember
It's gonna get better
The next time your child is in trouble remember
It's gonna get better

You're talkin' about your boss just remember
It's gonna get better
The next time you cry in the midnight hour
It's gonna get better

Look at somebody and tell 'em it's gonna get
It's gonna get better
I feel like [Incomprehensible]
Come on
