Hello Fear

Before you sit down there's something I need to  
explain

Since you're here

I think I should tell you since we last talked things have  
changed

See I'm tired of being broken-hearted

So I made a list and you're on it

All my hopes and my dreams You took from me

I want those back before you leave

Hello Fear

I knew I would see you, You have a hard time letting go

See these tears, Take a good look cuz, soon they wont  
fall anymore

God's healing my hurful places

That seat that was yours now is taken

I'm no longer afraid, See I'm better this way

And one more thing before you leave

(Chorus)

Never again will I love you

My heart it refuses to be your home

No longer your prisoner

Today I remember

Apart from you is where I belong

And never again will I trust you

I'm tired of fighting it's been way too long

No longer your prisoner

Today I remember

Who I was and now it's gone

They're gone

Hello Fear

Da da da da da, da da da da da

Farewell Goodbye So long (3X)

Hello Grace

It feels like forever, I thought my chance with you was  
gone

See your face, it reminds me of mercy  
And please let me say I was wrong  
Never knew your touch was endless  
How you never run dry of forgiveness  
Didn't know how bad it was, was afraid just because  
Sorry fear, grace took your place

#### CHORUS

Farewell Goodbye So long (8X)

Hello Fear  
Before you sit down there's something I need to  
explain
