If ya been delivered stand up on your feet and praise  
the Lord  
Yeah, yeah, yeah, yeah, yeah  
Let me tell you now  
If ya been delivered stand up now and help me praise  
the Lord  
Yeah, that's right  
Yeah, yeah, yeah, yeah

Here's the knowledge, get your pen and your paper  
A spiritual paper, you'll be callin' me later  
Seeking Godly wisdom that's 2000 years in the making  
I'm taking the lesson that holds your deliverance  
You feelin' this

Askin' me how God can save a man, raise a man  
The enemy he pays your man  
So why you judging me and your buggin' me  
Just remember me, ain't no fearin' me  
You hearin' me

If ya been delivered stand up on your feet and praise  
the Lord  
Yeah, that's right, that's right  
Yeah yeah yeah yeah  
Let me tell you now  
If ya been delivered stand now and help me praise the  
Lord  
Yeah, yeah, yeah, yeah, yeah

You can shout to this, bounce to this  
Clap to this, just as long as you don't question this  
Radical, acrobatical, Jesus Christ fanatical  
Sabbatical taker, innovator, in love with the Creator

Since I was a baby I know folk hate me  
But lately don't really matter what you say  
Them silly games you try and play  
I represent the One who healed me  
God's people can you feel me

If ya been delivered stand up on your feet and praise

the Lord  
Yeah, come on, come on  
Yeah, yeah, yeah, yeah  
Let me tell you now  
If ya been delivered stand up now and help me praise  
the Lord  
Yeah, yeah, yeah, yeah, yeah

All my people on the left  
All my people on the right  
Clap your hands

All my people on the left  
All my people on the right  
Clap your hands

All my people on the left  
All my people on the right  
Clap your hands

All my people on the left  
All my people on the right  
Clap your hands

If ya been delivered stand up on your feet and praise  
the Lord  
Yeah  
Yeah, yeah, yeah, yeah  
Let me tell you now  
If ya been delivered stand up now and help me praise  
the Lord  
That's right, that's right  
Yeah, yeah, yeah, yeah, yeah

All my people on the left  
All my people on the right  
All my people on the left  
All my people on the right

All my people on the left  
All my people on the right  
All my people on the left

Make my praise the high praise  
I want to lift Him up  
Make my praise the high praise  
I want to lift Him up
