Now we are never alone
Your blood it makes us strong
Now there is power to move on
Never, we are never alone

Solo:
Once I had a heart
That just wouldn't seem to heal
No joy blowing through the wind
Your touch I couldn't feel
Near my end I heard Your voice
Speaking comfort to my soul
Saying when You're weak that's when I'm strong
Now I'm so glad I know

No more loneliness
No more cloudy days
No more crying in the midnight
Or, the fears that just won't fade
No more loneliness
No more skies that all seem gray
For I'm resting in Your blood stain hands
Forever and always.

Though I may fall
I hear your call, telling me
That I am free
I'm free indeed

No more loneliness
No more cloudy days
No more crying in the midnight
Or the fears that just won't fade
No more loneliness
No more skies that all seem gray
For I'm resting in Your blood stain hands
Forever and always.

Can you help me say
Thank You for the blood (Thank You for the blood)
Cause it has more power (more power)
That healing power (Healing power)

(Rept)

And if it wasn't for the blood (Wasn't for the blood)
There would be no power (No power)
No healing power (No healing power)
(Rept)

We praise you for the blood (Praise You for the blood)
Cause it gives me power (Gives me power)
Holy Ghost Power (Holy Ghost power)
(Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah,
yeah)

So this is how we honor You
You left your throne to make us new
You became our substitute
So we lift our hearts in praise

For the blood (Falling on us)
For the blood (It gave me purpose)
For the blood (You are for us)
For the blood (Who can be against us?)

Oh the cleansing power
Takes the guilt away
The Lamb was sacrificed
Now we, no longer fear the grave
No more condemnation
The debt a man has paid
By the blood (By the blood)X3

It was the blood....blood...blood...blood
Ooooh.
