

Kiros "Strengthen Me..."

Visit "[Strengthen Me...](#)" on MotoLyrics.com

Take this in stride
We'll let them offer up their minds
As we carry on
We've made our choice
This crowd will sing with just one voice
Angels sing along

We find our strength in you
We know what pulls us through
But it's just not the way that we thought it would be

We draw the lines
Between the end and where we lie
Tell me what went wrong
Grey fades to black
We're headed the wrong way down a one way track
With one way back

We find our strength in you
We know what pulls us through
But it's just not the way that we thought it would be

(Take this in stride
We'll let them offer up their minds
As we carry on)

We find our strength in you
We know what pulls us through
But it's just not the way that we thought it would be

We find our strength in you
(Our strength in you)
We know what pulls us through
(You pull us through)
But it's just not the way that we thought it would be
