I was all alone
When she said goodbye
It was the pain of a life-time
I just wanted to die
I knew not a chance
I stood with you
But I had to try
Thought my love was true
(chorus)
See
It's been way too long
And know
I must move on
Won't again make you my world
Cause I've found
I've found another girl
Wore your scars of love
For long enough
I'll love her more
'Cause she's not a hore
(repeat chorus)
