When the night goes on forever
And the flashing lights are calling out your name...
Tell me does it feel the same now;
That the beat is trapped inside you
And the overspill is flowing through your veins.
Don't you want to feel this way?

Let your light shine
Bright just like the sunshine
Don't wait for the right time
Move it up, break it down
Shake it any way you want to.

Now the sweat is dripping slowly
Hot and wet, the way you hold me
Through (through the pain) the rain.
We're gonna wash it all away now.
The day is just about to break.
Like another lie another mistake.
We can shut them all away.
Don't you want to stay and play?

Let your light shine
Bright just like the sunshine
Don't wait for the right time
Move it up, break it down
Shake it any way you want to.

Go on inside, jump on let's ride
Don't fight the feeling. That's right.
You know you want it.
You know you need it.
Baby if you want it,
Just let it go.

Let your light shine (let it shine bright)
Bright just like the sunshine
Don't wait for the right time
Move it up, break it down
Shake it any way you want to.

Please me, she needs me.
Says she's feeling freaky.
She don't want romancing.
She just keeps on.
Dancing all night long.
Let the DJ bump that song.
Anything you want girl.
Just keep your head up and dance.

Let your light shine (let it shine bright)
Bright just like the sunshine
Don't wait for the right time
Move it up, break it down
Shake it any way you want to.
