Infinity... infinity?
Sky cold, skin blue, when I wake.
So swim into essential, you've swam a thousand voids.
Why is eternity forever?... Why is eternity forever?
Skin screams bear me again, inner sanctum?
We watch from dry land,
While waves destroy our theories.

So swim into essential, you've swam a thousand voids.
Why is eternity forever?... The horizon deceives.
Some say "their ships above sea" sailing on winds of belief,
Why waves destroy our theories bear me again?

Sky cold, skin blue, when I wake to worship water

So swim into essential, you've swam a thousand voids
Why is eternity forever?... The horizon deceives
Some say "their ships above sea" sailing on winds of belief
Why waves destroy our theories bear me again?

So swim into essential, you've swam a thousand voids
Why is eternity forever?... The horizon deceives
Some say "their ships above sea" sailing on winds of belief
Why waves destroy our theories bear me again?

Sky cold, skin blue, when I wake, infinity waving
Sky cold, skin blue, when I wake, infinity waving
