Chase faded days with eyes that cannot see
I wanna feel it again, washing over me
Discover all of you one moment at a time
Taste, smell, secret cell, your soul, it touches mine

I need to feel up
Hope knows I need it this way
Like I'm Walking On Clouds
I can't come down
Even if you wanted me to
I can't come down
Even if you wanted me to

Nothing can stop me, I'm never satisfied
I take what I want, refuse to be denied

Live in the moment, the future can disguise
It's starting to touch us, but I still can't touch the
Sky

I need to feel up
Hope knows I need it this way
Like I'm Walking On Clouds
I can't come down

Even if you wanted me to, I can't come down
Even if you wanted me to, I can't come down
I can't come down...
Down...
Down...
Down...
I can't come down...
Can't touch the sky...
