Verse 1

When Time Gets Near To Me

To Show My Love

The Longer I Stayed Away

Forhiding From A World

I Need To Hear Now

Don't Think I'll Heart It Again

But The Nights Were Always Warm With You

Holding You Right By My Side

Right By My Side

But The Morning Always Comes Too Soon

Bevore I Even Close My Eyes

Chorus

All I Do Each Night Is Pray

Hoping That I'llbe

A Part Of You Again Some Day

All I Do Each Night Is Think

Of The Time Closed The Door

To Keep My Love Within

If You Can't Forget

The Past

I'll Understand That

Can't Understand

Why I Did This To You

And All Of The Days And The Nights

Okay I'll Regret It

I Never Showed You My Love

But The Nights Were Always Warm With You

Holding You Right By My Side

But The Morning Morning Always Come Too Soon

Before I Even Close My Eyes

Chorus

Surely We Must Be In Sight

Of The Dream We Long To Live

If You Stop And Close Your Eyes

You'll Picture Me Inside

I'm So Cold And All Alone

Straight On Back To Me

Repeat Chorus
