"Always Near You Nowhere To Hide"

I've just begun since you've gone, to understand I'm
the only one
And if you cross yourself at night

I'll come and see you, don't run and hide
I'm always near you, I'm always near you, near you

And if you turn out the light (turn out the light)
Don't think you'll hide behind the night (behind the
night)
And if you touch me, I might

Might turn and see you, don't run and hide
I'm always near you, I'm always near you, near you

I've just begun since you've gone (since you've been
gone)
To understand I'm the only one (the only one)
And if you cross yourself at night

I'll come and see you, don't run and hide
I'm always near you, I'm always near you, near you

Don't run and hide, you'll be the only one
I said don't try to hide for me and everyone
Don't try to hide, you'll be the only one
I said don't try to hide for me and everyone

Everyone, oh everyone, oh everyone
Everyone, oh everyone, aha, oh everyone
Everyone, oh aha, aha, everyone, oh everyone, aha, oh
aha
