I caught the tail of a hurricane and I've never ever been  
the same  
I went out on a limb, gotcha under my skin, well alright  
You got dirt under your fingernails  
What I'm thinkin' can land me in jail  
Well, you're caught in this trap and you can never go  
back  
Well, oh no no

I know you wanna cross the border and you know the  
doctor's orders  
Well it's better late than never, can't stay innocent  
forever  
It's alright, it's alright, yeah

Any way you slice it, any way you slice it  
You know you can't deny it, any way you slice it  
You're hot under the collar  
Ain't your mother's little daughter anymore

Ooh, ain't no wolf on the corner, can't keep it any  
longer  
Well if you're lookin' for bliss  
What I got you can't miss, well alright

When it works like a charm it'll do you no harm  
You'll be in heaven tonight  
I know you'll feel alright

Any way you slice it, any way you slice it  
You know you can't deny it, any way you slice it  
I know what's in your heart, I know what's in your mind  
Any way you slice it, any way you slice it  
You know you can't deny it, any way you slice it  
You're hot under the collar  
Ain't your mother's little daughter anymore

I know you wanna cross the border and you know the  
doctor's orders  
Well it's better late than never, can't stay innocent  
forever  
No, no, no, no

Yeah, alright  
Well, if I told you once, I told you twice  
Just listen, babe and take my advice  
Why settle for seconds when you can have the best  
So let me be your king bee, I want your hornets nest

Any way you slice it, any way you slice it  
You know you can't deny it, any way you slice it  
I know what's in your heart, I know what's in your mind,  
yeah

Any way you slice it, any way you slice it  
I know you can't deny it, any way you slice it  
You're hot under the collar  
Ain't your mother's little daughter anymore  
You know you ain't your mother's little daughter  
anymore  
Any way, ooh hoo
