Baby, I know it's a jungle out there  
Well if you can play it cool, I can play it debonair  
You were warm, but there was an inner ice  
And baby, it was like a rollin' dice

Well I told you once, I told you twice  
Hey listen babe, there's trouble in paradise  
Well I found a lipstick stain of your kiss  
Well you can sink your teeth into this, bitch

So I'm gonna dance, dance all over your face  
I'm gonna dance all over your face  
I'm gonna dance, dance all over your face  
I'm gonna dance all over your face

Hey baby, can you pass this quiz?  
Well, just put your money where your mouth is  
You're as sharp as a slap from a lover's hand  
Hey baby, baby, baby, this is all I can stand

You played your hand, and now you lose  
Well listen bitch, I've got news  
Yes, I saw you with another man  
And you put me in disgrace

So I'm gonna dance, dance all over your face  
I'm gonna dance all over your face  
I'm gonna dance, dance all over your face  
I'm gonna dance all over your face

Dance, dance all over your face  
I'm gonna dance all over your face  
No cheap perfume can change my mind, no satin and lace  
Yes, I'm gonna dance all over your face

No thigh high boots, forbidden fruits  
No satin and lace  
Yes, I'm gonna dance, dance all over your face  
I'm gonna dance
